Steve,

Sorry to miss the ACM TAG meeting again. I will plan for next month.

Yes, a draft community involvement plan for the CFAC site will be available soon. I will share it with you when it's ready.

Hope the meeting went well, see you soon Steve!

Robert,

I hear you will not make it to BE today. That's OK, but I still hold it as among the most successful TAGs and as we get into FS stuff, I think it's really going to show through. Next month we should have the bigger community soils FS and perhaps you can make that one (if I were to recommend any one over the next several months).

I finally made contact with Susan Nicosia, and I also hear you have the CFAC public participation plan near ready. Can you share that with me when its ready?

Do let me know if you see other needs out there I can help with. Thanks!
